GENERAL CHARACTERISTICS

Offering 3 seating positions, the beach deckchair for people of all abilities allows everyone to relax and sunbath quietly on the beach.

Thanks to its height adapted to a wheelchair (height of 53 cm), the transfer is very easy.

The fabric of the beach deckchair is UV resistant to maintain a pleasant surface for the user. For even more comfort, a sunshade is integrated to protect against the sun.

KEY ADVANTAGES:

- Height adapted to people of all abilities (53 cm)
- Sunshade to protect against the sun
- UV resistant
- 3 seating positions
- Stable (can be installed on a hard surface or on a soft surface such as sand)

APPLICATION AND INSTALLATION CONDITIONS

This beach deckchair can be used on hard ground (concrete, terrace etc.) but also on soft ground (sand, grass etc.)

INSTALLATION

Step 1: Leveling the ground

On the sand, a broom is enough to level the ground and then place the deckchair at the desired location.

Step 2: Installation

Simply unfold the deckchair and adjust the parasol to your preference.

UNINSTALL

Step 1: Sweep the deckchair

One of the advantages comes from its structure which prevents the sand from storing itself and thus weighing down the whole. Sweeping is therefore easy.

Step 2: Uninstall

Simply fold the deckchair and move it to the desired location if necessary. Its weight of 11 kilos allows it to be easily moved.
